PROF. CHAS. DAVIS.

WELL KNOWN ORGANIST RECEIVES AN OFFER FROM AN EVANSVILLE CHURCH.

Prof. Chas. Davis, the popular organist at the First Christian church, has received a flattering call from one of the largest churches in Evansville, but has not yet given an answer. He will go up the latter part of this month to give a recital. Prof. Davis' many friends and admirers in Paducah hope he will decide to remain here.

COLE WAIVED.

IN DEFAULT OF BOND HE WENT BACK TO JAIL.

Robert Lee Cole, the young man charged with stealing two diamond rings and a plain ring from Mrs. R. C. Calise, waived examination this morning and went back to jail in default of a \$200 bond. His father, brother, who were telegraphed and written to, have replied. This was the only case in the police court today.

MR. JAMES CLARK DYING.

Editor W. W. Martin, of Eldysville, is in the city today.

Traveling Passenger Agent Evan Prosser, of the B. and O. S. W., left today for home.

Mrs. W. C. Schofield returned at noon from a visit to Fulton.

Mrs. C. J. Smith, of West Jefferson street, returned at noon from Newbern.

Origins of Vandevoile.
"Vandevoile" is of French origin, coming from van-de-vire, the valley of the River Vire, in Normandy. This name was given by Oliver Bassing, a poet of the fifteenth century, to his convivial songs composed in the valley of the Vire, which became popular throughout France. The word thence came to mean any gay song and is now applied to light dramatic entertainments in which songs and dancing are prominent. It is, by the way, seldom pronounced properly. Rightly spoken, it sounds as "I spelled 'vode-vil,' the 'o' long, and the emphasis usually distributed over both syllables.

F. D. Armour's Education.
Philip D. Armour, the Chicago millionaire, expressed himself the other day as of the opinion that a college education was more apt to hamper than to help a man in the making of a fortune. "I myself," he said, "got my education in a little red schoolhouse, except for a few months at Case's academy."

BUSY WEEK

The Clearances at the Banks This Week Make a Total of \$530,811.09.

TRADE A LITTLE DULL.

Whiskey and Grocery Men, However, are Having Fine Trades—Some Small Failures.

ALL THE NEWS OF THE WEEK.

Counter business with the banks the past week has been very active. The demands for money are good, and the deposits hold up well. Clearings the past week were large, aggregating \$530,811.09.

Some of the wholesale houses are complaining of poor trade while others report business heavier than ever before. The whiskey and grocery men are kept busier than anybody. Collections are fair, but some of the houses have been catching a number of small failures the past few weeks. They are mostly small country stores. The other wholesale houses are escaping thus far.

Retail trade is fair. The city trade is light but the country business is good and mostly all cash trade. When the tobacco season opens up good things will be brisker.

TOBACCO.

The offerings of the week, though small, contained some of the best tobacco of the season. Prices on all grades were firm at last week's quotations. Receipts at the rehandlers were light.

MR. QUINN PROMOTED.

Mr. J. M. Quinn, a Mayfield man, but recently of Louisville, has been appointed manager of the Equitable Life Insurance company for Michigan, with headquarters at Detroit. Mr. W. T. Coppers will be in partnership with him.

DEEDS.

Thirty-four acres of land, ten miles from the city, were sold to Cora D. Peal by John B. Chiles and others for \$500.

The great revival service will be resumed tomorrow. Pastor G. W. Perryman will preach both morning and night. Quite a number are waiting baptism. In view of the great throng that has been attending on Sunday nights Rev. Perryman has made arrangement with Y. M. C. A. Secretary Escott to speak to the overflow meeting in the lecture room. A great time is expected tomorrow. Members will give their seats to strangers and assist Bro. Escott. The new choir of sixteen voices will lead the singing. Young People's meeting at 6:30. Sunday school at 9:30. Young Men's class meets in auditorium.

Many Students in Law Course.
There are 644 students in the Harvard law school this year, eighty-two colleges being represented by their graduates, and Yale leading, its delegation numbering seventy-three.

ANOTHER CHANCE

Important Opinion in Howard Case Rendered by Republican Judges of Court of Appeals.

WRITTEN BY JUDGE GUFFY

The Man Convicted of the Murder of Goebel Will Most Probably Get Justice.

DEMOCRATS DISSENT FROM RULING

Frankfort, Ky., March 9.—The court of appeals, the three Democratic judges dissenting, handed down an opinion, written by Judge Guffy, which, it is believed, foreshadows a reversal in the case of Jim Howell, convicted of the murder of Gov. Goebel.

The opinion promulgated by the majority members of the court is "That under the provisions of the code a witness cannot not be required to answer any question the answer to which would tend to show that he had been guilty of any misdemeanor, had been accused of any crime, indicted for any crime, or convicted of any misdemeanor; and that no such facts can be proved, and consequently, a witness by other witnesses."

The opinion of Judge Guffy was written as a response to a petition for rehearing in the case of John Welch against the commonwealth, appealed from the Henry circuit court and in which the appellate court had, in an opinion by the same judge, reversed the lower court and sent the case back for a new trial. In the original opinion, in which all the judges concurred, the point decided by the response was not before the court and was not discussed, the question being there as to the cross-examination of a witness not the defendant on trial.

JUDGE BARR'S HEALTH.

The following from the Louisville Post of yesterday will be of interest to the many friends here of Judge Barr: "Former United States Judge John W. Barr left Louisville today for an extended trip through the west in search of health. He will visit California, and on return will stop at Salt Lake, Denver and several other points. Judge Barr has been in feeble health for some time and expects to be benefited by the trip."

THE SUBJECT HAD SKIPPED.

A crowd with a bucket of tar and switches, visited the home of Charles Tyler, colored, on North Fifth street last night, but could not find him after searching his home and the houses of others. Tyler is one of the negroes fined yesterday for immorality, and has probably skipped out. He replenished his fuel yesterday afternoon.

A DAILY THOUGHT.

Any man may make a mistake, but none but a fool will continue it. —Cicero.

"PUBLIC MORALS AND PUBLIC JOURNALS."

There is no question but that publicity is one of the strongest forces in regulating and purifying public morals. There are times when public opinion becomes apathetic; when the officers of the law, in view of the indifference of the public, ignore the conduct of immoral people; and when the violators of the law and public decency themselves take no pains to conceal their contempt for public opinion. In such cases it often becomes the duty of the public press to make known the true state of affairs and sometimes to publish details, which are as disgusting to the editor himself as to his readers, in order that the public may have a true conception of the enormity of the evil threatening order, decency and good morals. It has frequently happened that a vigorous newspaper campaign against vice has been productive of results of incalculable benefit to society. In fact the public press of today is one of the greatest, if not the greatest, reforming agency in our social system. The Sun, however, does not believe that the recent case of immorality that has come to public notice in this city is a case in point. The crime of miscegenation is unspeakably revolting. It is impossible to conceive of the depths of immorality to which those persons recently arrested have descended. But the public needs not to be reminded of the grossness of that vice. Neither does the police force need prodding to get them to do their duty in such cases. The recent arrests were due entirely to the vigilance of the police force who had the case in hand long before the newspapers reporters were taken into their confidence. The court needs no suggestions; his only regret is that the extreme penalty he can impose is shamefully inadequate as a punishment for the crime.

Therefore in this case The Sun does not believe that it was called upon to spread broadcast the disgusting details of the revolting affair, as said before. The Sun is a regular visitor at the homes of a majority of the good people of this city. It does not propose to go into those homes filled with needless details of vice and crime unless the good of society demands such an exposure. The Sun prefers to go to its readers filled with clean and wholesome news rather than with disgusting details of revolting crimes such as are found only in sensational newspapers and publications catering to the lowest passions of human nature. The management of The Sun firmly believes that the home loving and law-abiding people of Paducah heartily approve of its policy and course.

We are not surprised, however, at the course of our two contemporaries. Their course in criticizing the actions of this paper has ever been dictated by envy and jealousy and no one for a moment believes that their criticism in the present case is born of malice and of an intense longing to prejudice the good people of this city against The Sun. Malignant and false statements and insinuations have been the chosen weapons of those papers in their warfare on The Sun. The Sun expects nothing else from them.

We are not surprised that both our contemporaries should feel the necessity of some apology for the very incident accounts they have furnished of the Dvorak case. The "Police Gazette" and "The Last Sensation," were in their time suppressed by law because they pandered to the cravings of the depraved portion of humanity and printed just such realistic accounts of such occurrences as this.

It is probable an all will be constructed from the Register office to Fifth street to provide space for the News. The new management will probably not go into effect for a few weeks.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; hence cases of deafness are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars to any case of deafness, caused by catarrh, that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

NO AGREEMENT.

BUT MINE WORKERS AND OPERATORS STILL HOPE FOR A SETTLEMENT.

Louisville, March 9.—The arbitration committee of the United Mine Workers of America, Kentucky district, and the operators have continued their conference without reaching any agreement.

President Wood, of the Mine Workers, said: "While we have not yet reached an agreement I will say we are not yet without hope. The scale is being discussed in all its bearings, and our sessions are held morning, afternoon and at night. It is a very important matter that we are discussing, and we did not hope to get through within a week. However, we may reach an understanding at any time. When this is accomplished we will present our report."

The delegates from the various unions in the "Southwestern" district are still here awaiting the result of the deliberations of the conference committee.

Chairman T. J. Flournoy returned at 4 o'clock this morning from Louisville and stated that no agreement was reached, and the convention adjourned until March 25.

BEAUTY IS HEALTH.

Walnut Lake, Ark., June 3, 1900.

I thank you for the benefit I received from your advice and the Wine of Cardui I took. In my terrible condition my life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flies quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its lre and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles 1.00 bottles of Wine of Cardui.

to have the city of Louisville cede to the United States an irregular strip of river front ground, extending from the foot of Ninth to the foot of Sixth street, and from low water mark to the right of way line of the Illinois Central railroad. The object is to have the government extend the canal wall from its present terminal at the foot of Ninth street up to Sixth, thereby straightening up a part of the side of the canal channel that is now a crooked line. The strip is almost assured that it will be built by the government, and that part of the river front will be greatly benefited.

Paris-Berlin Telephone Line.

The telephone line between Paris
and Berlin, which has been recently
inaugurated, was completed in June
last. The French and German officials,
however, would not give the line over
to public use until it had been thor-
oughly tested. A conversation be-
tween Berlin and the French town of
Bordeaux, Orleans and St. Etienne, for
which 64 marks is charged. Both the
lines between Paris and Berlin and
Paris and Frankfurt are double and
are constructed with bronze wire five
millimeters thick. It was originally
the intention of both governments that
the telephone should be ready at the
opening of the exposition. The Ger-

the French frontier by the end of
March.
